

# Youth Classes

**Entering grade 7 through graduating seniors**

## **Youth Bible Study** (Mary Todd Peters)

Join us for a time of creative scripture exploration of the daily themes and a different way to apply these stories to our daily lives. Short video presentations will be available as well as a packet of suggestions that can be used in small groups or in individual homes to help personally engage with the scripture and themes for each day.

*Mary Todd Peters is Director of Christian Education at New Hope Presbyterian Church in Chapel Hill, North Carolina.*

## **Art Workshop: Art in the Liturgical Arc** (Ann Laird Jones and Hannah Garrity)

We will gather to create a collaborative art of three dimensions in motion. Using fabrics, metals, and natural materials, we will explore fundamental ideas about the practice of visual art in worship. Particularly, we will engage artistically in the process of planning the visual time and space of a Service of Word and Sacrament.

## **Photography: Finding the Perfect Light** (Scott Neely)

A lot of factors have to align to produce the perfect photograph. In the end, photography is about light. The camera has tools that regulate how much light reaches the camera sensor. If there is too little light, the photo will be too dark. If there is too much light, the photo will be too bright. In the same way, a photo should tell a story through composition. Can the same be said about our faith journey? Together we will dig into the conference theme, "A Great Cloud of Witnesses," using photography as our vehicle. We will challenge our visual intelligence and create ways to bring a balanced light into the world, and grasp God's composition for our life!

## **Morning Yoga** (Krista Wright)

Take time to get your breath and your body working together through a series of yoga poses. Improve your strength, flexibility, balance, and breathing. Calm your mind, and connect to your soul. All experience levels welcome.
